Curriculum Vita

Name: Besma Mohammed Fahad

Academic Qualification:

- Assist. Prof. 2012.
- Ph.D. Materials techniques, university of technology, Baghdad -Iraq. 2007. (The first on her department)
- M.Sc. Materials techniques, university of technology, Baghdad Iraq. 2002. (Received a reward for her thesis)
- B.Sc. Materials Engineering, technical college/ Baghdad -Iraq.1997. (Received a reward from minister of higher education for earning the highest marked on the college and being the first on her department)

Working Experience:

- 1. Teaching glass technology. (Third class)
- 2. Composite materials. (Fourth class)
- 2. Teaching ceramics and glass. (Fourth class)
- 3. Teaching extraction metallurgy methods. (First class)
- 4. Teaching advanced ceramics and glass. (M.Sc. course)
- 5. Member in many committees.
- 6. Supervisor on many practical researches (projects) of under graduate students.
- 7. Supervisor on many researches of post graduate students (MSc.).
- 8. Evaluate many researches and theses.

central of specification and quality

Seminars and Conferences

Participation in over nine seminars and thirteen conferences in the field of materials engineering.

Training partnership and preparation:

- Over five years training and supervised in glass factory for repairing glasses.
- Programming course for two weeks.
- Education methods for three weeks.
- One month in UM and UKM university/ Malaysia; to develop the experiences in education.
- Three years in central of specification and quality control (C.O.S.Q.C) - Iraq.

Papers and topics published:

- Till now 39 researches have been published in different material engineering fields.
- 30 projects of under graduate students.
- supervisor 12 MSc. theses.

Fields of these researches, projects and theses are composite materials, construction materials, sustainable materials and advanced materials.
