

Community Medicine post Graduate study

# IRAQI HEALTH SYSTEM

**Organization levels of PHC Iraq:**  
highly centralized, hierarchal fourth levels

# Organization levels of PHC Iraq

# Challenges for Iraqi health care system

- ⦿ Infrastructure reconstruction
- ⦿ Effective information system
- ⦿ Efficient use of existing resources
- ⦿ Human resource development
- ⦿ Multi-sectoral plan (water, sanitation, food)
- ⦿ Evidence based planning
- ⦿ Performance driven evaluation
- ⦿ Decentralized management
- ⦿ Correct motivation & incentive

# Private health care sector

Private national companies for management & delivery of health services

- ◉ Being freed from bureaucracies, providing flexibility, instant action, immediate response.
- ◉ Regarded as a partner with a potential to improve the health system.

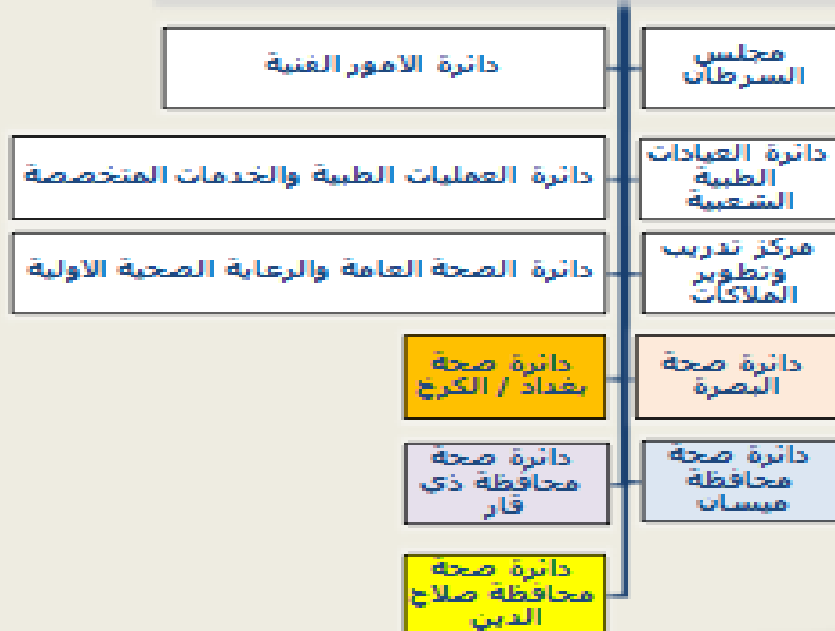

During privatization, the overall responsibility must remain in MOH judgment → Its Regulation is gov responsibility

Its role & size depend on the extent to which the public sector fails.
