Example 8:- Assume you have the following nodes

80, 15, 72, 90, 33, 16, 27, 35, 44, 12, 1, 95 Find the following

1. Build a Binary Tree.
2. Insert 17, 78, 55 to the tree in number (1).
3. Delete 72, 12, 17 from the tree in number (2).
4. Represent tree in number (1) by using linear array.

1. Build a Binary Tree.
